KENTUCKY PARTNERS IN POLICYMAKING

For people with developmental disabilities
and their family members

The Partners in Policymaking
program is about achieving greater:

INDEPENDENCE
PRODUCTIVITY
SELF-DETERMINATION
INTEGRATION
INCLUSION

September 2025 to May 2026

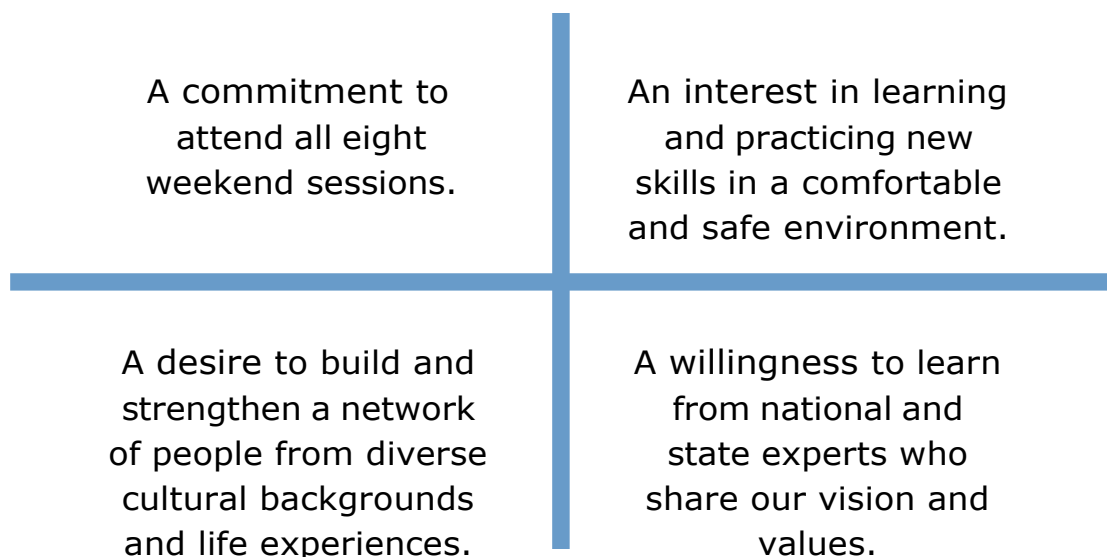

PARTNERS IN POLICYMAKING is a leadership training program designed for people with developmental disabilities and their family members.

The Partners program was created by the Minnesota Governor's Council on Developmental Disabilities more than 35 years ago and has been offered nationally and internationally. Partners teaches leadership skills and the process of developing positive partnerships with elected officials and other policymakers who make decisions about the services that you and/or your family use. Partners is accessible, informative, and empowering.

Since the first Partners class in Minnesota in 1987, a total of over 1,000 self-advocates and parents have graduated.

Partners is about systems change- creating working towards and achieving a vision of shared values about people with disabilities. It is based on the belief that the most effective and enduring public policy decisions are made by the people who need and use services in partnership with elected officials and other policymakers. It is about becoming confident in oneself, competent in the knowledge and information received, and comfortable in sharing the life experiences and expertise one brings to the program.
